Ordering Information For Our Valued Customers

ALL ORDERS: All orders must be accompanied by total payment, including any noted packing and shipping charges. Acceptable payment in the United States of America includes personal checks, money orders, cashier's checks or credit cards. Please allow clearing time for personal checks.

Use of our Order Forms (or a copy of them) will assure quickest service on your order. Please check your order for accuracy before sending it to us. If you have overpaid, we will send you a Credit Slip which can be used on future orders of any kind; Credit Slips are not redeemable for cash, and we will not issue a cash refund for overpayment under any circumstance. If you have underpaid, a notice for the difference will be sent to you.

All items shown in this catalog are in stock in ample supply unless otherwise noted. We process and ship orders several times each week, shipping the best available way.

Due to their value, a number of books shown in this catalog are sent via United Parcel Service (U.P.S.) and require a signature from the recipient. Delivery via U.P.S. cannot be made to a post office box number, but must be made to a street address. United Parcel Service will not deliver to P.O. Box numbers.

Packing & Shipping Rates

VALUE OF ORDER	RATE
Under \$10.00	\$4.25
\$10.00 to \$19.99	\$5.00
\$20.00 to \$49.99	\$5.75
\$50.00 to \$99.99	\$6.75
\$100.00 to \$149.99	\$7.75
\$150.00 to \$199.99	\$8.75

For Shipment Within The United States Only

Orders for products from this catalog cannot be made on a customer-approval basis. We have gone to great lengths to describe our products in explicit detail so that any order made is an informed one. Returns for refund are never granted. Returns for exchange will be granted in cases where merchandise is obviously defective due to manufacture.

CREDIT CARD ORDERS: Yes, we accept either MasterCard or VISA credit card orders, by telephone or mail. Minimum credit card order is \$10.00. Please supply card number and expiration date with all credit card orders. We do not accept collect calls for orders or any other reason. Our telephone order desk is open Monday through Friday, 9:00 a.m. to 5:00 p.m.

FOREIGN ORDERS: We prefer to ship Air Mail. Surface mail takes one to three months to reach destination, and there is no guarantee the order will be received at all. Insurance is not available for some countries for surface delivery.

Packing and shipping costs shown in this catalog do not apply to foreign orders. Shipping costs are determined by total weight of the order and the area to which it is being shipped. If you are not using VISA or MasterCard for payment, please write for price quotation.

Shipping charges for actual delivery charges (surface or air) will be automatically added to all VISA/MasterCard orders from foreign customers.

Increased difficulty with United States banks in attempts to process checks drawn on foreign banks has forced us to change policy regarding the processing of foreign orders. All orders from foreign countries (subscriptions, book and merchandise orders) must be accompanied by one of the following methods of payment: Cash; Hanover Banking Draft; International Money Order; or VISA or MasterCard. Payment must be in United States dollars or the order cannot not be processed. Any order under \$100 is subject to a \$5 service charge.

Any order over \$10.00 must have costs of insurance added.

We assume no responsibility for orders lost if shipped surface mail at customer's request. Remember that some shipments sent via surface mail are not insurable.

Our employees are conversant in English only; all correspondence and orders must be in English.

Telephone: (702) 387-8750 ★ 24-Hour FAX: (702) 366-1599

TELEPHONE ORDER DESK OPEN MONDAY THROUGH FRIDAY, 9:00 A.M. To 5:00 P.M.

Legal States For Collecting Slot Machines

If you've been in the slot machine collecting game any time at all, you probably already know what the laws in your state have to say about the subject. As a potential slot machine collector, the first thing you need to know is whether you reside in an *illegal* or *legal* state. This one fact will form the basis for the establishment and evolution of your coin machine collection.

The obvious answer to the question of: To collect or not to collect is really rather easily summed up. If you live in a state in which slots are illegal, don't buy any. Don't accept any as gifts. Don't bring any slots in from outside the boundaries of your state. That's all there is to it.

To the slot machine enthusiast, of course, this answer seems arbitrary and un-American. After all, the slot machine is an American invention, and it should be possible for any American to own, buy, sell, trade or display their treasured piece of Americana with collectors from other states. This is, after all, a country in which the laws are intended to serve as well as to

govern the people. But remember, many of these laws have a distinctly unpleasant aspect—they stay on the books until someone forcibly removes them; a lengthy and complex action usually prompted by some emergency or other. Removing laws from the books is much more difficult than it sounds, and generally more difficult than putting them there in the first place.

What is a legal state? Although the laws vary, the basic law of all states is that the machines in question be used for collecting purposes only, and that they *not* be used for gambling. Other additions to the various laws also define an antique slot machine. In some states this definition is any machine manufactured prior to a "fixed date" such as 1941 or 1950; at the same time, however, many such fixed-date laws *do not* specify that those machines manufactured *after* such a fixed date are *illegal*.

In some states there is a so-called 25-year law; in other words, any slot machine manufactured more than 25 years ago is considered an antique.

In reality, however, many machines manufactured only ten years ago have been considered by many courts to be antiques since the machines in question were proved to be an authentic part of an historic collection, in which no machine was used for gambling purposes.

Very precisely speaking, the mere fact that these mechanical and electromechanical slot machines are no longer manufactured makes them antiques. This may not be a valid assessment in the eyes of the law, but it is an established principle found to be true of collectibles overall. The one aspect of any collectible that makes it valuable, if not also historically pertinent, is its limited number. When production of an object ceases, then that object is finite in number and accrues value thereby.

Historically speaking, the majority of the slot machine laws now on the books were neither originally nor intentionally directed at private ownership of the machines. Such laws were intended to control, if not wipe out altogether, professional crime and illegal gambling. Not all states had laws such as this.

You may believe that your state has no pertinent law regarding the possession of slot machines of any vintage, but the fact is that you may actually live in a legal state without even knowing it. The problem is that in many, if not most cases, the relevant laws are not clearly defined.

In most states where legal reference to slot machines is actually made, the entry is found in the text of the criminal code, usually under the classification of *Gambling*. This classification does not take into account those myriad machines serving only as collectibles; merely one more example of the confusion regarding the definition of slot machines as an entity.

In some cases where certain gaming collectibles are proscribed, collecting becomes a matter of adherence to a legislative mandate. Some laws dictate that possession alone, of any gambling device, is a criminal offense without defense, regardless of what the device may or may not be used for. It is wiser to be wary.

Let's get down to specifics. The states listed here are, to the best of our knowledge, currently legal for the collection of antique slot machines, provided the machines are not used for gambling purposes.

It should be noted that absolute protection of your collectible slot machines cannot be guaranteed unless you follow the precise letters of your own state laws. You are strongly urged to contact your Secretary of State (in your state of residence) for specific wording of all applicable laws.

List Of Legal States

Alaska Ownership of any slot machine is allowed if the machine is not intended for use in unlawful gambling.

Arizona Ownership of a slot machine of any vintage is permitted providing machine is not used for gambling.

Arkansas Any machine manufactured 25 years ago or earlier is presumed to be an antique and legal possession if kept privately for non-gambling purposes. Owners must register their machines with the Revenue Division of the Department of Finance and Administration and pay a \$10 fee for a numbered decal to affix to each machine.

California Any machine manufactured 25 years ago or earlier is legal as an antique providing two-thirds or more of the exterior metal casing components (excluding fasteners) were manufactured in the United States. The make or date of the internal mechanism is not relevant for the test of legality.

Colorado Any machine introduced prior to January 1, 1984 is legal as an antique. Actual date of manufacture date is not part of the law. Operation of machines of any vintage is legal in specific towns by gaming license.

Connecticut While gambling devices are broadly defined, slot machines are not specifically mentioned. Gambling devices are subject to confiscation if found in a place known or suspected to be a gambling premise (a place used for professional gambling). Conclusion: While gambling requires consideration, gambling devices are more broadly defined, leading to an ambiguity as to whether or not a device that does not require consideration can be a gambling device. The possession of a gambling device is illegal, but perhaps they may not be subject to confiscation unless they are on gambling premises.

Delaware Any machine manufactured 25 years ago or earlier is legal as an antique.

District of Columbia Any machine manufactured prior to 1952 is legal by definition as an antique.

Florida Any machine manufactured at least 20 years ago or earlier is legal as an antique.

Georgia Any machine manufactured prior to January 1, 1950 and not used for gambling purposes is legal.

Illinois Any machine manufactured 25 years ago or earlier is legal as an antique. Operation of machines of any vintage is legal on riverboats by gaming license.

Iowa Any machine manufactured 25 years ago or earlier is legal as an

antique. Operation of machines of any vintage is legal on riverboats by gaming license.

Kansas Any machine manufactured prior to 1950 is legal as an antique.

Kentucky Slot machines of any vintage are legal provided they are not used for gambling.

Louisiana Any machine manufactured 25 years ago or earlier is legal. Operation of machines of any vintage is legal on riverboats by gaming license.

Maryland Any machine manufactured 25 years ago or earlier is legal as an antique. Modern slot machine gambling under specific state license and control is legal in selected counties.

Massachusetts Any slot machine (mechanical, with drum or reels containing insignia), manufactured 30 years ago or earlier is legal. Poker machines and video gaming devices of any age are legal for personal home use.

Michigan Any machine manufactured 25 years ago or earlier is legal.

Minnesota Private ownership of machines of any vintage is legal.

Mississippi Any machine manufactured 25 years ago or earlier is legal as a collectible. Operation of machines of any vintage is legal on riverboats by gaming license.

Missouri Any machine over 30 years old is legal. Operation of machines of any vintage is legal on riverboats by gaming license.

Montana Any machine manufactured 25 years ago or earlier is legal as an antique but not allowed on public premises for sale or display. Ticket dispensing video poker games are legal in licensed Montana liquor establishments under specific state license and control.

Nebraska Possession alone is illegal if machine is used in unlawful gambling activity.

Nevada Slot machines of any vintage are legal for home use if used for amusement and not profit. A license from the Nevada Gaming Commission is required for commercial operation, selling, manufacture or distribution, whether by individual collector or registered dealer. Individuals may sell up to two machines per year upon filing Application 14.330 with the Nevada Gaming Control Board. The form is available from the Board or from Mead Publishing Company for a small fee.

New Hampshire Any machine 25 years old or older is legal.

New Jersey Any machine 30 years old or older is legal.

New Mexico Ownership of a slot machine of any vintage is permitted providing the machine is not used for gambling purposes. Transfer of a machine is a crime if it will knowingly be used for gambling.

New York Any machine manufactured prior to 1950 is legal.

North Carolina Any machine manufactured 25 years ago or earlier is legal.

North Dakota Any machine manufactured 25 years ago or earlier is legal.

Ohio Slot machines of any vintage are legal if not acquired, possessed, controlled or operated for profit.

Oklahoma Any machine manufactured 25 years ago or earlier is legal.

Oregon Any machine manufactured prior to 1958 is legal.

Pennsylvania Any machine manufactured prior to 1941 is legal.

Rhode Island Ownership of any slot machine is allowed if the machine is not intended for use in unlawful gambling.

South Dakota Any machine manufactured prior to 1941 is legal.

Texas Slot machines of any vintage may be legal possessions as long as not used for gambling purposes. Private places [clubs] may offer slot machines and other forms of gambling for their guests, providing no person receives any economic benefit other than personal winnings and that except for the advantage of skill or luck, the risks of losing and the chances of winning are the same for all participants [guests]. This new law (September 1, 1994) is strangely worded, so beware.

Utah Possession alone is not an offense. Collectors may own slot machines provided the machines are not used for gambling.

Vermont Any slot machines manufactured prior to 1954 is legal.

Virginia Slot machines of any vintage may be legal possessions as long as not used for gambling purposes.

Washington Any slot machine manufactured 25 years ago or earlier is legal.

West Virginia Slot machines of any vintage may be legal possessions as long as not used for gambling purposes.

Wisconsin Any slot machine manufactured 25 years ago or earlier is legal.

Wyoming Any slot machine manufactured 25 years ago or earlier is legal.

Summary

Please remember that this listing is merely a interpretive capsulization of the actual laws for each state on which we have precise information. For absolute protection you are encouraged to make your own determination of how the laws of your particular state specifically apply to your collection.

The Owner's Pictorial Guides

IN STOCK AND AVAILABLE FOR Bally • Jennings • Mills • Pace • Watling

The Owner's Pictorial Guides

Each of the five books in the *Owner's Pictorial Guide* series is the most comprehensive work ever published about the particular slot machine covered. They are original works, not reprints of old service technician's booklets. Whether you have one or several of the particular machines covered, you will want these extraordinary books in your library.

Slot Machines

Owner's Pictorial Guide for the Care and Understanding of the Bally Electro-Mechanical Slot Machine

Although dealing with all models from M/742 through M/1206 manufactured from 1963 to 1981, this book specifically covers the four basic types of Bally machines: single coin, five coin multiplier, three-line and five-line criss-cross. However, the knowledge gained from this book will enable the reader to work on a great many other Bally machines. Over 300 detailed photographs, 94 isolated circuit diagrams and four complete, large, fold-out schematics (printed on colored paper for ease in locating) for the four basic types are accompanied by step-by-step instructions for all routine maintenance operations, as well as complete assembly, disassembly, overhaul, lubrication and theory of operation.

The book is organized into 17 chapters with six appendices. Methods used to calculate payout characteristics have been demonstrated, so the statistics of any machine can be computed by the reader. Additionally, there is a detailed lubrication guide specifying the precise location and type of lubricants required on the various assemblies. A comprehensive trouble-shooting guide is included for routine, easy-to-fix malfunctions.

Throughout the book are numerous charts, tables and diagrams; each electrical diagram contains location codes for the electrical components so that they can easily be found.

This extraordinary book has been written specifically for the person who

is a novice with electricity and has had no prior training in the mechanics of slot machines. This approach allows the reader to become comfortable with the simple circuits (and their mechanical interfaces) used in the Bally electromechanical slot machines. Thus, with a few simple tools you'll be able to analyze and correct any problem you may encounter with your Bally's machine.

The *Bally Owner's Pictorial Guide* contains 236 total pages (plus four fold-out wiring schematics); it measures 8 $\frac{3}{4}$ " x 10 $\frac{7}{8}$ ", and is square-back perfect bound with attractive full-color, plastic-coated softcover.

★BKS-130440 \$44.95

Owner's Pictorial Guide for the Care and Understanding of the Mills Bell Slot Machine

This mammoth book is specifically directed to the owner of any full-size three-reel Mills bell machine manufactured after 1920, including the puzzling BONUS, NEW BONUS and FUTURITY models. However, the knowledge gained from this book will enable the reader to work on all previously manufactured Mills machines. Over 500 detailed photographs are accompanied by step-by-step instructions for all routine maintenance operations as well as complete assembly, disassembly, overhaul, lubrication and theory of operation.

This enlarged third edition, now in its third printing, is organized into 14 chapters, with seven appendices for machine part variances, and an extensive glossary for parts identification. With this extraordinary book and a few simple tools, you will be able to analyze and correct any problem you may encounter with your Mills machine.

The book contains 208 total pages, including an extensive table of contents and introductory material; it measures 8 $\frac{3}{4}$ " x 10 $\frac{7}{8}$ ", and is square-

back perfect bound with attractive full-color, plastic-coated softcover.

★BKS-130220 \$39.95

Owner's Pictorial Guide for the Care and Understanding of the Watling Bell Slot Machine

Inspired by the success of the highly acclaimed *Mills Owner's Pictorial Guide* (the first of the series), this exemplary text is specifically directed to the owner of any full-sized, three-wheel Watling bell machine manufactured after 1926, including the BLUE SEAL, ROL-A-TOP and TREASURY series. Over 350 photographs are accompanied by step-by-step instructions for all routine maintenance operations as well as complete disassembly, overhaul, lubrication, assembly and theory of operation.

The book is organized into 13 chapters, with three appendices for machine part variances, including skill stop feature and gold award token mechanism, and an extensive glossary for parts identification. With this extraordinary book and a few simple tools you will be able to analyze and correct most of the problems you may encounter with your Watling machine.

This enhanced edition contains 148 total pages, including an extensive table of contents and introductory material, measures 8 $\frac{3}{4}$ " x 10 $\frac{3}{4}$ ", is square-back perfect bound with attractive full-color, plastic-coated softcover.

★BKS-130330 \$29.95

Owner's Pictorial Guide for the Care and Understanding of the Jennings Bell Slot Machine

The puzzling complexity of the Jennings slot machine has led to the most comprehensive work ever published about any mechanical slot machine. This gigantic book is specifically directed to the owner of any three-reel Jennings bell slot machine manufactured after 1931 with the exception of the LITTLE DUKE. However, the reader will find that work on most other Jennings machines manufactured prior to 1932 can be managed successfully. Over 450 photographs are accompanied by step-by-step instructions for all routine maintenance operations as well as complete disassembly, overhaul, lubrication, assembly and theory of operation. With this volume and a few simple tools you will be able to analyze and correct nearly all of the problems you may encounter with your machine.

This second printing of the popular first edition contains 163 total pages, including an extensive table of contents and introductory material, measures 8 $\frac{3}{4}$ " x 10 $\frac{3}{4}$ ", is square-back perfect bound with attractive full-color, plastic-coated softcover.

★BKS-130110 \$31.95

Owner's Pictorial Guide for the Care and Understanding of the Pace Bell Slot Machine

The Pace Bell slot machine was a marvel of engineering simplicity. This comprehensive manual covers all standard-sized mechanical models of this remarkable slot machine. Approximately 350 detailed photographs are accompanied by step-by-step instructions for all routine maintenance operations as well as complete disassembly, overhaul, lubrication, assembly and theory of operation.

The Pace machine's design has stood the test of time, as evidence by its continued use in several Nevada casinos. Since many of these machines are being retired from casino service and are being acquired by collectors, an entire chapter has been devoted to casino variances and added-on devices.

With this manual and a few simple tools you will be able to analyze and correct nearly any problem you may encounter with your Pace slot machine. This second printing of the popular first edition contains 144 pages, measures 8 $\frac{3}{4}$ " x 10 $\frac{3}{4}$ ", is square-back perfect-bound with attractive full-color, plastic-coated softcover.

★BKS-100285 \$29.95

Handbook of Slot Machine Reel Strips

There has never before been a published book of slot machine reel strip combination with complete payout statistics—until now. And what a book—nearly 300 total pages!

The heart of the *Handbook* consists of over 200 computer-generated charts which mathematically analyze various combinations of old factory-standard reel strips. Also included are various old casino combinations and patched versions, requiring simple punching of the discs on the lemon

symbols in order to raise the payout percentages. The range is from 10 stops to 38 stops, from two reels to four; it's all here! The charts completely list the symbols in order of appearance on the strips, give the manufacturer's identification number (when available), and give detailed, symbol-by-symbol payout percentages as well as overall payout percentages.

With this book you will be able to establish a simple "Layout Code" for your machine's reel strips. This will permit you to quickly and easily look up this Layout Code in the *Handbook* and learn what you have probably already asked yourself: "What does it pay?"

The *Handbook of Slot Machine Reel Strips* contains a detailed 21-page Table of Contents that lists machines by manufacturer, tells the number of stops, payout type, layout code, manufacturer's identification numbers, payout percentages, special notes, and tells on what page a detailed computer chart may be found. There are no less than four indexes—over 30 pages—that list the computer charts by manufacturer's identification numbers, computer data file names, payout percentages and payout types.

If you are mathematically inclined, there is a complete chapter on how to formulate equations for the computation of a slot machine's payout statistics. Other chapters explain how the charts were devised, with a detailed explanation, containing an example, on how to use the charts.

The book is not for everyone. We only recommend it for operations, historians, collectors, enthusiasts and students. How about it . . . do you qualify?

The *Handbook of Slot Machine Reel Strips* contains 296 total pages, measures 5 $\frac{1}{2}$ " x 8 $\frac{1}{2}$ ", is square-back perfect bound with an attractive plastic coated, leather-like soft cover.

★BKS-100117 \$17.95

Slot Machines on Parade

Whether you want to do some serious research, are simply in the mood for a classic picture book to enhance your leisure hours, are a fervent collector in need of machine identification information, or are just looking for some fascinating reading material—this is the book for you! *Slot Machines on Parade* is the one book you *must* have in order to make your library complete. It is the classic slot machine picture book of all time!

With 115 full-page color illustrations in a large 9 $\frac{1}{4}$ " x 12 $\frac{1}{4}$ " format, this opulent volume is the inevitable picture book for slot machine enthusiasts. Its comprehensive index and full table of illustrations make it the definitive reference resource for collectors, historians and hobbyists.

Slot Machines on Parade is deluxe case bound, measures 9 $\frac{1}{4}$ " x 12 $\frac{1}{4}$ ", and contains a total of 224 pages. (Heavy, full-color plastic-coated dust jacket will be provided as supplies are available.)

★BKS-130200 \$39.95

Price Guide to Slot Machines on Parade

Following the publication of *Slot Machines on Parade*, it was discovered that there was a need for a price guide to enable collectors—novice or seasoned—to evaluate antique slot machines. The *Price Guide* serves that need by assigning dollar values to machines whenever possible. Although these figures were current at the date of publication, they may not reflect today's value; the values will, however, remain relative at future points in time. It should be noted that certain of the slot machines shown in *Slot Machines on Parade* are either unique or extremely rare; no dollar value can be accurately assigned to these machines. The *Price Guide to Slot Machines on Parade* is printed in black ink on colored, antique-like paper, and mailed folded.

★BKS-130200PG Postpaid \$2.00

Slot Machines

In this lavish volume, you join with Charles Fey, the inventor of automatic-payout three-reel slot machine, as he introduces the device in the San Francisco of 1890. You move with him—and his son, Edmund—through the Roaring Twenties and Prohibition, through the years of the Great Depression, and into today. Chronicled by Marshall Fey, the grandson of Charles Fey and son of Edmund Fey, the reader is treated to firsthand accounts of slot machines as they fit into each chapter of our nation's history. As a magnificent corollary to personal narration, the book is filled with color photographs, reproductions of clippings from old newspapers, cartoons, illustrations, schematics of patented machines—and even a section entitled "How the Darn Things Work."

Perhaps best described as a "pictorial" book, this publication contains and introductory section entitled Why It Happened Here, followed by 16 fact-filled chapters and a comprehensive index. *Slot Machines* belongs on

the bookshelf of the serious collector, on the coffee table of the hobbyist, and in the reference section of your local library. *Slot Machines* hits the literary jackpot!

Now in its third edition, *Slot Machines* features a printed and plastic-coated case binding measuring 9¼" x 12½", contains 256 pages and 667 illustrations (412 in full color).

BKS-200200 \$29.95

For Amusement Only

This combination book by Thomas Gustwiller covers a wide range of coin-operated amusement and gambling devices—about 500 of them!

For Amusement Only is a dandy pictorial reference guide for the rare and unusual machines collectors have heard about, but have seldom seen. Impressive black and white photographs of machines range from single-wheel counter- and floor-model slot machines and card machines to common two- and three-reel models. And in between there are cast iron payout and cigar (card) machines, coin flips and drops, horse race and dice games, roulette and spinner games and many miscellaneous devices.

Photographs average about three to the page and each is accompanied by a specification block listing the name, manufacturer, date, value, a rarity factor and appropriate comments.

As a bonus, *For Amusement Only* has included a machine listing originally compiled by *Coin Machine Journal* and a pictorial listing of "Most Wanted Unfound Machines." Both are invaluable sources for historical reference.

For Amusement Only is case bound with an attractive, full-color plastic-coated cover. It is fully indexed, measures 8¾" x 11¼" and contains 248 fact-filled pages.

BKS-300808 \$39.95

Slot Machines

Here is the low-cost answer to *Slot Machines*, described above. Many of your favorite slot machines—plus some rare ones—are found in this book by Dieter Lagwig. Hardbound with dust jacket, 80 pages, 9¼" x 12".

BKS-200007 \$14.95

Mills Bell Machine Service Parts Price List with Supplement Parts and Service Manual

Actually two publications in one, this Mills HI-TOP manual will round out your HI-TOP paper collection. This reprint was originally published in 1958, and covers all three- and four-reel machines, including the little-known four-reel FOUR CROWN machine with art deco styling. Eleven photographs and over a thousand parts with part name, number and price are listed. Attractive tan two-color cover, 20 pages, 8½" x 11", saddle-stitched. Supplies are limited.

★BKS-100102 \$3.95

FOR YOUR INFORMATION

The books listed in this catalog represent publications available at press time. We constantly have new titles available to us; and supplies of existing titles regularly go out of print. If you cannot find what you are looking for, or if you have questions about our publications or products, give us a call—we can probably help you.

Over the years our review staff has read and researched literally hundreds of publications relative to coin-operated collectibles and related subjects. Only those which have met our stringent evaluation criteria are included here. Every book listed is, in our estimation, the definitive one. The reader will probably not need to purchase any other similar books elsewhere in order to cover the subject of interest.

Many of the books listed in this catalog are published by Mead Publishing Company. These can be identified by the star (★) which precedes the order number. Others, without the star, have been obtained from other publishers worldwide. Mead Publishing Company is proud to distribute this enhanced line of publications, adding breadth and depth to the most unique catalog of specialty publications and products for enthusiasts of slot machines, coin-operated collectibles and related subjects.

Pace Parts List and Service Manual

Here is a rare booklet that was originally issued in 1937 by the Pace Manufacturing Company of Chicago, the original manufacturers of the Pace slot machine. It contains a special photo section showing the ALL-STAR COMET, ALL-STAR SIDE VENDER, ALL-STAR GOLD AWARD BELL, COMET FRONT VENDER, DEFERRED-PAY FRONT VENDER, ROYAL COMET and the ARISTO scale. And it's filled with over a thousand pictured parts, all identified and priced! This authentic reproduction contains 40 pages, 5½" x 8½", saddle-stitched.

★BKS-100105 \$3.95

Caille Brothers Company—Catalog 311

This authentic reproduction of this famous gambling machine catalog is simply unmatched for detailed representation of the Caille gaming machine line. More than 150 clear, sharp photographs on 72 pages of detailed descriptions, code names and explanations make this an absolute must—it even has the original tear-out price list. Printed on glossy paper with multi-color cover, 5½" x 8½", saddle-stitched.

★BKS-100106 \$7.95

Caille Amusement Machines—Catalog 512

Here is another authentic reproduction—it even has the special roll-over fold, just like the original published in 1912. More than 35 illustrations of various arcade and amusement machines grace the pages of this unique piece. Included are scales, peep shows, lung and strength testers, electricity devices, candy/peanut vender, pedestals and money-changers. Printed on glossy paper with multi-color cover, 5¼" x 7½", saddle-stitched.

★BKS-100907 \$4.95

Collector's Treasury of Antique Slot Machines from Contemporary Advertising

While not pretending to provide exhaustive coverage of the antique slot machine, this 480-page volume does give a superb sampling of the advertising that appeared in *The Billboard*, a magazine long rated as the number one trade publication of the coin machine industry. Taken from issues dating over a period of 25 years, advertisements for such landmark machines as the 1937 Mills MELON BELL, the BALLY BELL and BALLY DOUBLE BELL of later vintage are included in the book's chronological arrangement, as are some devices that are to be found *only* in the ads, never having made it into production.

Described accurately by the author as a "primary source book," *Collector's Treasury of Antique Slot Machines from Contemporary Advertising* must be called gigantic—with 480 fact-filled pages. This one-of-a-kind book measures 6¼" x 9¼", and is hard bound with brown leather-like covering, hot foil stamped.

★BKS-100261 \$22.95

Anatomy of a Vintage Slot Machine

This slender book was never meant to be read by any but the slot machine operator, as the Mills Novelty Company published the information itself as a means of touting its own machines by spotlighting its new high-tech (for that time) factory and its emphasis on precision construction.

Now beautifully reprinted for the enthusiast and collector of antique slot machines, *Anatomy of a Vintage Slot Machine* is 45 pages in length, measures 6¼" x 9¼", has a silver-foil stamped dark blue hard cover, and has a plain-paper dust jacket.

★BKS-100360 \$6.95

Bally Slot Machines 1964-1980

For over a decade, collectors have been predicting that the next collectible series of slot machines is the electro-mechanical series by Bally. These are the machines that revolutionized the slot machine industry, and marked the beginning of the end of Jennings, Mills, Pace and Watling. This handy reference booklet gives you a pictorial line-up of all the popular Bally electromechanicals from their introduction in 1964 through 1980, and adds a section on the E Series, the immediate successor to the electromechanicals.

Bally Slot Machines 1964-1980 is a logical companion to the *Bally Owner's Pictorial Guide* described elsewhere in this catalog, and mea-

asures 8½" x 5¼", contains 80 pages and is saddle-stitched with full-color, heavy paper cover.

BKS-200212 **\$9.95**

Operating Instructions and Parts Catalog for the Bally Model 742 MONEY HONEY Slot Machine (115 Volts)

This reprint covers all 115 volt models of the very first Model 742 MONEY HONEY slot machine, with installation instructions, operational sequence, mechanism and percentage adjustments, wiper blade layouts, wire numbers and colors, coil and switch function chart, and lubrication guide. This is the machine that is now legal in all 25-year states, and this reprint is of the manual that was shipped with the machines starting in 1963.

The booklet measures 8½" x 11", contains 20 pages and is saddle-stitched with our own durable, attractively-designed mint green cover.

★BKS-100111 **\$4.95**

Operating Instructions and Parts Catalog for the Bally Model 742A Slot Machine (50 Volts)

Originally published shortly after the booklet described above, this 32-page manual was designed as a follow-up companion-piece, as it assumed that anyone reading it had already read the earlier publication. This monograph covers all 50 volt models of the MONEY HONEY, and includes a table of operational sequences, instructions for adjusting the hopper unit and safety timer motor, and reel assembly. There is a chart that lists wire colors and numbers, and one for lubrication.

This reprint measures 8½" x 11", contains 32 pages and is saddle-stitched with our own durable, attractively-designed tan cover.

★BKS-100112 **\$6.95**

Slot Machines of Yesteryear Series

This three-volume series was authored by Dan Post and covers the entire history of the Watling slot machine and two decades of the Mills Novelty Company. To retain the authenticity of the original, these reprints are in black and white, but nothing has been spared to assure the high quality of the printing process.

Mills of the Thirties Operator's Companion

This is the first in the series, and contains reproductions of product brochures, service literature and advertisements, accompanied by a running narrative by the author to lead the reader through this exciting decade in the Mills Novelty Company's existence. Case bound (hardcover), containing 192 pages, the book measures 6¼" x 9¼", with a metallic red-foil stamped cover.

★BKS-100273 **\$12.95**

Mills of the Forties Operator's Companion

Like its predecessor, this book by Dan Post, covers a decade in the history of the Mills Novelty Company, with special attention paid to its slot machine products. The period marked a change in the company's operations, as World War II saw a name change (to Mills Industries Incorporated, and then, for its slot machine division after the war, the Bell-O-Matic Corporation), and the decline of slot machine production in the latter half of the 'Forties, as political jurisdictions began to legislate against various forms of gaming.

Also like its predecessor, this book is beautifully printed, with black and white illustrations reproduced with exceptional care. It measures 6¼" x 9¼", is case bound (hardcover) with a blue embossed cover.

★BKS-100274 **\$12.95**

Watling Operator's Companion

The third volume of the series by Dan Post contains the history of the Watling company and its products, with a narrative that is at once both informative and interesting, covering not only the account of the company's activities, but the personal activities of company founder Watling and his sons (although some of this information may well be apocryphal).

This volume, like its two predecessors, is superbly printed in black and

white, with meticulous attention paid to reproduction of the illustrations. Measuring 6¼" x 9¼", this hardcover book contains 192 pages, and features a cream-colored cover with gold-foil stamped title and illustration.

★BKS-100280 **\$12.95**

Slot Machines and Coin-Op Games

Spanning a century, the colorful and fast-changing worlds of the arcade and casino are vividly described in this fascinating history of coin-operated amusement games, from the penny arcade with its fortune-telling machines and strength-testers, *Slot Machines and Coin-Op Games* takes us through baseball machines, gun games, bowling machines, pinball games, slot machines and novelty arcade devices.

Bursting with full-color and black-and-white photographs, this delightful booklet is fully indexed, measures 8¾" x 11¼", contains 128 pages and 120 full-color photographs, and is case bound with attractive, full-color, plastic-coated dust jacket.

BKS-200731 **\$14.95**

Slot Machine Buyer's Handbook (2nd Edition)

We were unprepared for the quick sell-out of the first edition of this long-needed book. But the second edition is now in the works.

The smart buyer is a knowledgeable buyer, and this amazing book tells it like it is. Every conceivable aspect of buying a slot machine is covered in revealing depth. Strong and weak points of specific makes and models of slot machines, both old and new, are brought out and fully explained. The entire range of collectible slot machines is spanned from the earliest antiques to the hottest new casino models. Many are illustrated. Coverage includes the following and much, much more:

- ✓ How and where to find the best buys
- ✓ How to select a slot machine that's best for you
- ✓ How to determine a slot machine's condition
- ✓ Which machines should be avoided
- ✓ Specific models' performance history
- ✓ Parts availability for various makes and models
- ✓ Tricks used by fast buck artists to hide defects
- ✓ Counterfeit machines and how to spot them
- ✓ Foreign slot machines and how to spot them
- ✓ Originality vs. value
- ✓ How to detect non-original parts
- ✓ What's legal and where
- ✓ Which casino style slots are best for home use
- ✓ How slot machines work, mechanical, electric and the latest, modern microprocessor types
- ✓ Slot machine payout statistics
- ✓ A buyer's comparison of 800 slot machines.
- ✓ Learn how to buy "smart" and save a bundle. The savings on only one slot machine purchase can easily pay for this book many times over! This book not only answers questions that immediately come to mind, but will also help prospective buyers gain the expertise and self-confidence that would otherwise be acquired only through years of experience. Avoiding just one costly mistake in the school of hard knocks will recover the cost of this book many times over.

This book represents an endeavor that has long been needed in the field of collectible slot machines. The effortless reading style makes the *Slot Machine Buyer's Handbook* a welcome textbook not only for the novice, but also for the advanced slot machine collector. As one long-time collector said, "This is a book that should have been written 15 years ago!"

The illustrated *Slot Machine Buyer's Handbook* measures 5½" x 8½", will contain over 300 pages and is square-back perfect bound with attractive, full-color, plastic-coated softcover. Expected publication date is January or February of 1996.

Gambling Collectibles

This one-of-a-kind masterpiece by Leonard Schneir explores the world of gambling collectibles in a way that will inform and amuse both the novice and established collector. A myriad of gambling items are illustrated in over 400 full-color photographs. Included are many that are exceedingly rare and some which are not—but all of them are exceedingly attractive.

Gambling collectibles have an aura of romance and intrigue, beautifully captured in *Gambling Collectibles*. In addition to the finest existing pictorial collection of these unique collectibles, there is substantial text, which helps the collector put the various items in proper historical context.

Gambling Collectibles covers everything from old gambling advertising and motion pictures to the actual tools of the trade: cards, dice, chips, layouts, wheels and more. Chapters cover cheating, the story of pharo (faro), the Diana game, rare decks of cards and even fancy gambler's pocket watches.

Gambling Collectibles measures 8½" x 11", contains 160 fact-filled pages including price guide, is fully indexed and is perfect bound with an attractive, full-color, plastic-coated cover.

BKS-500541 \$29.95

Kernan Manufacturing Company Catalog

This catalog was originally issued in 1901 by the Kernan Manufacturing Company, dealer in supplies for saloons, billiard halls and club rooms. Printed on simulated old paper, the reprint duplicates the original exactly. There are over 300 pictures of such items as coin-operated machines, gambling devices, talking machines, guns, knives, dice, cards, wheels, trade checks and police goods. With 64 pages, this one is a must for the true collector, 5½" x 8½", saddle-stitched.

★BKS-100904 \$5.95

Protection - The Sealed Book

Originally published in 1911, this gambling monograph by Joseph E. Meyer details the various shady practices used by the "sharpers" of that era. With sections on the early slot machines, sleight-of-hand card tricks and crooked gambling devices, rigged roulette wheels, counterfeit money and loaded dice the books was an early effort (and an excellent one) to reveal to the public the ingenious tricks schemes and apparatus used by gamblers and get-rich-quick fakirs.

This classic reissue, still being prepared at presstime, has been completely enhanced and annotated. Editing has been limited only to modernize practices of punctuation, spelling and capitalization. The book's charm has been retained by using period typefaces. The result can only be described as a *classic classic*.

Protection - The Sealed Book measures 5¼" x 8¼", is square-back perfect bound, and has a gold-foil stamped, enhanced facsimile of the original black bookbinder's cloth cover.

★BKS-100087 Please Call

Gambling and Gambling Devices

John P. Quinn, in this reprint of his 1912 treatise on gambling and the evils attendant upon one's participation in the activity, inadvertently

authored a virtual encyclopedia of cheating techniques prevalent during the 19th and early 20th centuries. A reformed gambler himself, he alternates between moralizing against the "vice" whose "vortex is destruction" and dissecting the cheating methods used in nearly every type of gambling. Reflecting the tone of his times, Quinn speaks with impassioned rhetoric of his fervent hope that his writing "may prove a warning to many" presently involved in gambling.

Because of the exhaustive accumulation of information contained in the treatise, the book became a vital reference work for lecturers, ministers and law enforcement officers campaigning against the decadence of gambling. Every entry in the volume is spiced with Quinn's testimony of the degenerative aspects of gambling, a sermon repeated in one form or another throughout the book. In this aspect, the tome has value as nostalgia.

But there is much more to the work: the specifics of the "gafts" used in gambling games are detailed extensively. A chapter on slot machines contains 39 pages of photos, manufacturer advertising, and illustrations. This square-back, perfect bound book, reprinted from the original 1912 edition, contains 308 pages and measures 5½" x 8¼", and has an attractive two-color softcover.

BKS-500204 \$8.95

Gambling

Winning at Video Poker

The author has won over 50 royal flushes and rewards in excess of \$1.5 million in only three years; you can do it, too!

But let's back up. In early 1990 several unlikely events had *never* happened to author Robert N. Geddes. Ed McMahon had never knocked on his front door, and he had never achieved a royal flush on a video poker machine. But as a holder of several advanced degrees in exact sciences (mathematics, statistics, physics and electrical engineering), Bob never expected either of these miracles.

In late 1990, an improbable event came calling for Bob—a royal flush! Over the next several years he had accumulated 53 royal flushes under his belt and over \$1,250,000 in winnings! Between the royal flushes there were statistical gifts of the impossible to while away the hours.

How did he do it? By careful mathematical and statistical analysis of the game in all its forms. He made his own luck by closely following the results of his own computer-assisted analysis. While it is true that pure mathematics is the foundation of *Winning At Video Poker*, the results of complicated, closed-form equations and statistical theory have been translated into simple rules and strategies which can be easily understood by the lay person. Three simple rules from The Beginning Strategy can be memorized in minutes; more advanced strategies are advanced in successive stages. Knowledge gained from this book permits the tailoring and customizing of a personal and unique approach to playing specialized forms of video poker.

One of the oldest sayings describing success is, "Nothing succeeds like perseverance." Thus with Bob's belief in mathematics and the ability to persevere, *Winning At Video Poker* presents his true-story adventure and the mathematically-based techniques for making miracles come true.

Opportunity still knocks at Bob's door, but it hasn't been Ed McMahon—yet!

Winning at Video Poker, still in production at presstime, measures 5½" x 8½", will contain approximately 200 fact-filled pages and is square-back perfect bound with an attractive, full-color, plastic-coated cover.

Winning at Craps—A New Look at an Old Game

Veteran craps player Richard Schulte designed this book to do for the game of craps what *Beat the Dealer* did for blackjack; it should be of great interest to beginners with little or no knowledge of the game, as well as veterans who are tired of losing. As the first totally new book on the game in nearly 50 years, it could make all other books on craps theory obsolete.

As the basis on which the author builds his premise is an examination of the percentages of the various craps bets. After careful and painstaking analysis, Schulte has determined that certain time-honored assumptions are not verifiable in actual play; for example, he has determined that the house advantage *fluctuates*, rather than remaining static, as most players presume.

Winning at Craps—A New Look at an Old Game explains the best and worst bets, outlines a realistic money management strategy, provides in-

formation on junkets, comps, sucker bets, and much more. It measures 5½" x 8½", is square-back perfect bound, has 152 pages, and has an attractive, five-color plastic-coated cover.

★BKS-500606 \$9.95

Playing the Cards that Are Dealt: Mead Dixon, the Law and Casino Gaming

From the highly-respected University of Nevada publishing program comes this inside look at the development of gambling since World War II, as seen through the eyes of Mead Dixon, long-time legal counsel to William F. Harrah. Dixon masterminded the 1980 merger of Harrah's with Holiday Inns, and was influential in the expansion of that merged company into Atlantic City; after retiring from Holiday, he joined the Showboat board of directors and guided that company's successful expansion into Atlantic City as well.

Through Dixon's accounts as related to writers Ken Adams and R.T. King, the reader is introduced to the inner workings of the dynamic—if often cryptic—gaming industry, and to many of the principal factors and colorful figures in its explosive growth. The book is deluxe case bound in simulated linen, with a three-color plastic-coated dust jacket, measures 6¼" x 9¼" and contains 247 pages.

BKS-900365 \$19.95

The Expert at the Card Table

First published in 1902, this remarkable book has become a 90-year best-seller. Magicians and professional card tricksters have bought and sold and exchanged the book avidly for these many years, while sellers of gaffed gambling equipment sold the book as a complete course in card cheating techniques.

The book is much more than just a listing of various methods of manipulating the cards, however. It gives detailed, step-by-step instructions on shuffling, dealing and stacking decks. It divulges secrets of professional card-handlers; defines technical terms; and introduces new methods for blind riffles, blind cuts, bottom dealing and second dealing.

For those who always wanted to know "How do they do that?," this book is a priceless revelation. For those interested in how card-sharps manipulate the pasteboards, this is an invaluable guide. And for those who merely love the "magic" of a good card trick, this is informative and entertaining reading.

The Expert at the Card Table measures 5¼" x 8½", contains 218 pages and is square-back perfect bound with brightly-colored, heavy paper cover.

BKS-500406 \$3.50

Koschitz's Manual of Useful Information

According to the lengthy subtitle to this volume, the "useful information" is "Concerning Marks and Stamps, Portable and Fixed Devices, Manipulation of Cards and Other Matters of Interest to Lovers of Draw." This is a book devoted to card-playing: the players, the strategies of betting card games, cheating methods and devices, and even a section entitled "General Remarks," in which the author dispenses his own homey wisdom regarding card-playing in general.

The original was printed in 1894, and reflects the stylized writing of that era. The 48-page reprint retains that style in this rare classic. Although the author claims an "inferior education," he credentials himself with "years of indefatigable research expended in gathering the material."

Koschitz's Manual of Useful Information restricts itself to table card games, but is exhaustive in delineating the methods used to cheat, including marks and stamps, ruffling, roughening, glazing, enamel, acidulating, pricking, filling and burnishing, shading, scrolling, shiners and reflectors, mohair sleeve, shuffling, counting down, false cutting, double cross, cold decking, peeping, milching and butting in. For entertainment value alone, this is a bargain book. It measures 5¼" x 8¼", and is saddle-stitched with attractive, heavy paper cover.

BKS-500699 \$2.95

Sharps and Flats

This may well be the "definitive book on cheating," as claimed by the publisher of the reprinted edition, Gambler's Book Club. The original was published in 1894 and reflects the stylized tone and language of that period, replete with the author's private opinions and public moralizing.

The "sharps" of the title are those who cheat in order to win, and the "flats" are those who are duped by those tricksters, and the writer spares no one as he exposes, in words and pictures, the various cheating devices and methods. This fascinating study of the inner workings of gamesmanship over the years belongs on the desk or bookshelf of the serious gambler, collector, student or historian of gaming. *Sharps and Flats* measures 5¼" x 8¼", and is square-back perfect bound with colorful, heavy paper cover.

BKS-500125 \$6.95

Pai Gow Poker—A Guide to Win

In this book, Fred Parks explains in simple terms how to play the popular Asian card game often regarded as extremely complex. Pai gow poker does involve more complicated strategy than found in traditional draw or stud poker, but the author succeeds in presenting instructions on the play of the game in a manner that is both comprehensive and understandable.

Designed for the beginner, and the more advanced player seeking to improve his game, *Pai Gow Poker—A Guide to Win* measures 5½" x 8½", has 48 pages and is saddle-stitched with an attractive two-color cover.

BKS-500019 \$5.95

Break the One-Armed Bandits

Slot machines are the most popular form of gambling in casinos across the nation today. More than 60% of the casino industry's profits come from the notorious "one-armed bandits." But even seasoned slot players are still baffled by these phenomenal devices.

Now, for the first time ever, you'll discover—from an insider source—the big industry secret: exactly where the loose and tight slot machines are placed in the casino to maximize profits. Once you know how the casinos set up their machines, you'll be one, big jump ahead of the game!

But wait, there's a lot more. You will learn how to attack the machines profitably using methods developed by experts in the field. You will learn money management systems that reduce your risk. And perhaps most important of all, you will find out how to get the full range of "comps" and services your play warrants.

This fast-reading book by Frank Scoblete deals with all varieties of the slot machines colorfully known as "one-armed bandits." This book is a useful contribution, insightful and delightfully entertaining. Quite possibly, this "breakthrough" book may be the only publication on modern slot machine play you will ever need—whether you are a rookie or an expert!

Break The One-Armed Bandits contains 16 fact-filled chapters, a glossary and is fully indexed. Perfect bound, with a full-color cover, 180 pages, 6" x 9".

BKS-500001 \$9.95

Beat The Craps Out of the Casinos

Craps, like all casino games, has been considered an unbeatable game because the house has the advantage on every bet. But this book challenges this assumption by introducing the reader to the "Supersystem" method of play. Developed by the "Captain," a player who claims to be a ten-year winner, has written this book for the novice as well as experienced player.

We don't really believe in systems, but we must admit that *Beat The Craps Out of the Casinos* has some very interesting arguments. The "Supersystem" outlines the strategies in simple form. And the key to minimizing losses and maximizing wins is thoroughly explained, followed by step-by-step instructions that take the reader through each possible situation and show how the "Supersystem" gives the advantage.

Author Frank Scoblete tells how take advantage of the various "comps" offered by the casinos and beat them while they pay for your room, food and entertainment!

If you are a systems player, you will love this book. *Beat The Craps Out of the Casinos* measures 5½" x 8½", contains 13 chapters, fills 152 pages, is fully indexed and square-back perfect bound with an attractive full-color, plastic-coated cover.

BKS-500341 \$9.95

Guerilla Gambling

Noted gaming-book reviewer Howard Schwartz says: "You will want to read *Guerilla Gambling* before and after you play. It will tell you why you won or lost and make you a better player."

We couldn't agree more. Of all the cover-all-games books, *Guerilla*

Gambling is the most authoritative, insightful and complete guide you'll find for taking command of today's games. It's really more than just a guide—it is a guided missile exploding with winning strategies that can help players win their war against the casino games.

Author Frank Scoblete has covered all the new casino games including Hickok's six-card, Hickok's aces and eights, sic bo, pai gow poker, Caribbean stud, California aces, red dog, super pan nine, double down stud, two-up and pokette. But he has also give full attention to all the standard casino games, including how to find the best-paying slot machines and tips for beating video poker.

Guerilla Gambling measures 6" x 9", contains 339 fact-filled pages, is fully indexed and is square-back perfect bound with an attractive, full-color, plastic-coated cover.

BKS-500277 \$12.95

Getting Lucky

Winning the lottery is a lot like getting pregnant: for some people it happens on the first try. For others, hundreds of tries result in nothing. And when that happens you need a book that answers your questions, gives you some suggestions and helps you keep things in perspective so you don't lose out on the fun of trying. So... if lotteries are your game, you will be fascinated by the "Question & Answer" format of this book.

This book doesn't contain any secret formula for winning, but it is the next best thing. Insider information tells which states have the best lotteries, discusses systems, warns about scams, tells about ticket-buying services and tells why you shouldn't pick the numbers 1, 2, 3, 4, 5 and 6.

Getting Lucky contains Six Sections, with about 25 issues addressed in each section. The book is fully indexed, contains 188 pages, measures 6" x 9" and is square-back perfect bound with a full-color, plastic-coated cover.

BKS-500161 \$6.95

Bargain City

Las Vegas is where it is all happening! Period! And for booking, betting and beating the new Las Vegas, *Bargain City* is simply the best! Period!

Bargain City is the first book that addresses all the elements of a the rapidly changing Las Vegas. Its tips and tricks are tried and true, having been tested over the last 15 years by Las Vegas bargain guru, Anthony Curtis, publisher of the *Las Vegas Advisor* newsletter.

You will learn how to get free rooms at the hotels, profit from coupons and casino promotions, qualify for casino comps (even if you are a small player), sort through the Las Vegas sensory overload, partake of the best meal deals—and finally—how to get married, bring the kids, see a show and even eat a 59¢ breakfast. Your first bargain will come when you buy this under-priced book!

Also included are various strategies for exploiting beatable games, an account of the evolution of Las Vegas and a glimpse into what the future holds for the 25+ million yearly visitors to America's biggest and brightest boomtown.

Bargain City contains 238 exciting and money-saving pages, measures 5½" x 8½" and is square-back perfect bound with full-color, plastic-coated cover.

BKS-500501 \$11.95

Amusement Devices

Arcade Treasures

This is the very latest book covering arcade games. While the author (Bill Kurtz) has essentially concentrated on his basic interests—pinball games—there are still enough arcade devices to make this one of the best on the market. *Arcade Treasures* is an easy book to read because the text is far outweighed with pictures, nearly 450, and all in color.

Games covered are from the pre-1930s to the 1990s—from BRAYING JACKASS and SKEE-BALL to PAC MAN and Q*BERT. Categories include gun games, shuffle alleys, strength testers, claws and peep shows. The sheer quantity is astounding. The book also covers foreign games and related collectibles. Tips for buying and a price guide are also included.

Arcade Treasures is case bound with full-color cover, contains 176 pages, 8¼" x 11¾" and is fully indexed.

BKS-800619 \$39.95

Mike Munves Arcade Supply Catalog

This 1956 catalog of arcade and amusement machines has just about everything, new and old: kiddie rides, card venders, animated games, shooting galleries, popcorn vender, cigarette machines, photo and recording booths, mutoscope, drop picture machines, fortune tellers, jukeboxes, scales, strength machines, punching bags, counter games, gum and peanut venders, pinballs, tools and coin-counting machines. This authentic reprint has 249 illustrations and is printed with blue ink on white paper, just like the original 28 pages (missing pages 13 through 16), 8½" x 11", saddle-stitched.

★BKS-100903 \$3.95

Pinball Games

Pinball Art

Concentrating on the art and graphics of the backgames and playing fields, this beautiful book provides examples of the art as it developed from the speakeasies of the 1930s, through the diners and coffee bars of the '50s and '60s, and to the high-tech world of today. It includes a listing of artists with chronologies of their work, a listing of pinball milestones, and interviews with some of the early American artists who contributed to this unique genre.

Illustrated with 120 color photographs, numerous pencil roughs, and contemporary advertising. *Pinball Art* is fully indexed, measures 9½" x 12", contains 128 pages, and is case bound with attractive, full-color, plastic-coated dust jacket.

BKS-800101 \$24.95

Pinball

Written by Paul Zsolnay, *Pinball* is the low-cost answer to *Pinball Art*. It's all color and loaded! Hardbound with dust jacket, 80 pages, 9¼" x 12".

BKS-800071 \$14.95

Music Machines

Jukebox Art

Featured in this beautiful art book are jukeboxes from every era of their development, from the original conservative cabinet through the chrome, fins, and flashing lights of the '50s, with special attention to the lesser-known manufacturers. The great names—Wurlitzer, Seeburg, Rock-Ola and AML—are featured, of course, but the most outrageous jukebox design was sometimes the product of the smaller manufacturer.

Written by an expert in both jukebox design and 20th-century art, *Jukebox Art* measures 9½" x 12", contains 128 pages and is case bound with attractive, full-color, plastic-coated dust jacket.

BKS-700098 \$24.95

Vintage Jukeboxes—The Hall of Fame

From a simple wind-up mechanism released by the John Gabel Company in 1906—the Gabel Automatic Entertainer—with a horn speaker and automatic changing system, all activated by the insertion of a coin, came the ubiquitous jukebox. This beautiful volume, with its superb printing, whether in black and white, duo-tone, or full-color, presents a gallery of coin-operated record-playing machines through the years, with fascinating

We Still Have Coin-Op Jewelry

We still have some cloisonné coin-op jewelry left, but not enough to advertise. When the line is gone it will not be replaced. Included in our inventory are several styles of slot machines, jukeboxes and the famous Columbus gumball vender. Various pieces are available as necklace or charm. This line features rich, porcelain-like colors and gold or nickel plating over jeweler's bronze. Please call before ordering.

narrative of the history, technical achievements, design wars, marketing strategies, and progression and development of the art form.

Definitely for the coffee table, but equally at home in the library, *Vintage Jukeboxes* measures 8¾" x 11¼", contains 128 pages and is case bound with attractive, full-color, plastic-coated dust jacket.

BKS-700323 \$14.95

Complete Identification Guide to the Wurlitzer Jukebox

The title says it all! This book presents the Wurlitzer jukebox from the 1833 "Debutante" clear through the last American Wurlitzer in 1974, and to the 1989 Model CD-Carnegie. Replete with photographs, many from company releases and advertising, the *Complete Identification Guide to the Wurlitzer Jukebox* measures 8½" x 11", contains 122 total pages, and is square-back perfect bound with attractive cover.

BKS-700018 \$17.95

Jukeboxes: 1900-1992

There are various books on the market dealing with each of the major jukebox manufacturers, but until now no publication has dealt with the entire spectrum of designers and makers of this truly American creation. This magnificent volume covers the multitude of manufacturers—35 to be exact—and shows a plethora of models—over 90!—some in full-color photographs.

For a student of historian of early jukeboxes, or for a pleasing addition to your coffee table, *Jukeboxes: 1900-1992* is matchless. It measures 8½" x 11", contains 182 pages, and is GBC spiral-bound with attractive, foil-stamped plastic covers.

BKS-700550 \$29.95

Wurlitzer Automatic Musical Instruments

This reprint of a 1908 Rudolph Wurlitzer Company catalog is a nostalgic window into the turn-of-the-century operations of the famous music machine manufacturer. Covered are its electric Pianino, nickel-operated Tonophone, the Wurlitzer Harp, the Mandolin Quartette, Player-Piano, PianOrchestra, Singing Birds, Pipe Hand Organ and Military Band Organs, all with detailed descriptions and prices.

The 48-page catalog also contains information about the Wurlitzer Company, testimonial letters from customers, as photos of music machine installations. The reprint itself was a find; printed more than 30 years ago, and discovered in a forgotten warehouse by Dan and Nora Mead while exploring the Southern Nevada area, the book measures 7¼" x 10¾", saddle stitched, with a colorful drawn cover.

BKS-700025 \$7.95

Jukebox

This pictorial book by Dieter Ladwig is the low-cost answer to the more expensive jukebox books. Included are both the older and newer models. All color, hardbound with dust jacket, 80 pages, 9¼" x 12".

BKS-700808 \$14.95

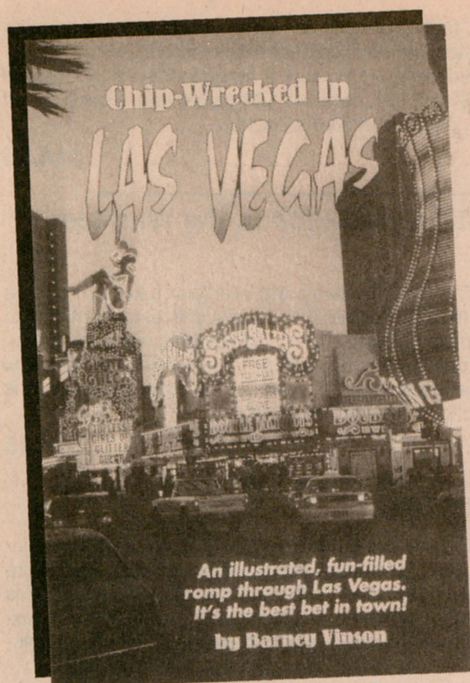

Soda Pop

Collectors Guide to Coca-Cola Items

The *Collectors Guide to Coca-Cola Items* comes in two volumes. Although not the only books available on popular Coca-Cola collectibles—and not even the largest—these two books may well be the best for the person who doesn't want to make a life study of Coca-Cola items. Each volume is printed in full-color on gloss-coated paper. In each volume, you will find striking photographs of items, accompanied by descriptions, values, and sundry other tidbits that enhance the collectibles' worth.

Collectors Guide to Coca-Cola Items, Volume I measures 8½" x 5¾", contains 94 pages and is square-back perfect bound with attractive full-color, plastic-coated softcover. Supplies are limited; please verify availability before ordering.

BKS-900341 \$10.95

5½" x 8½"

Simply Outstanding!

Barney Vinson's

Chip-Wrecked In

LAS VEGAS

It's a riotous collection of 70 short stories about one of America's favorite places . . . Las Vegas! Nearly 90 photos of Las Vegas and Nevada – old and new . . . 400 spellbinding pages!

From the book . . .

- ✓ Strange events that have occurred inside casinos
- ✓ Why video poker is taking over the industry
- ✓ Las Vegas scams and shams through the ages
- ✓ The rise and fall of the mighty Dunes Hotel
- ✓ The true story of the life and death of Bugsy Siegel
- ✓ Your best odds on all the games in Las Vegas
- ✓ The inside story about Las Vegas's tourists traps
- ✓ That private, little casino at Caesars Palace
- ✓ What casino people earn in Las Vegas
- ✓ A slot mechanic's true story about a big jackpot
- ✓ The best way to find out what's happening
- ✓ The low-down on who gets tipped, and how much
- ✓ Who's who . . . and what they do in Las Vegas

See actual photos . . .

- ✓ Early gambling pictures of Reno and Las Vegas
- ✓ Bugsy Siegel . . . in life and death
- ✓ Inside Hoover Dam . . . before it filled with water
- ✓ Reno's famous Virginia Street in the early 1930s
- ✓ Pappy Smith in Harolds Club with old-time slots
- ✓ John Caler's ROBIE THE ROBOT slot machine
- ✓ Craps shooters inside the Las Vegas Club in 1947
- ✓ One of Herb Pastor's "Girls of Glitter Gulch"
- ✓ Louis Prima singing at the Sahara Lounge in 1956
- ✓ Casino surveillance through one-way mirrors
- ✓ Double Mills slots being played for \$10,000
- ✓ Howard Hughes and other young casino owners
- ✓ Opening night at the Sands Casino in 1952

... from Nevada's largest newspaper

"Las Vegas casino worker-cum-author Barney Vinson has served up his latest book on the city of lights . . . packaged by Mead Publishing Company, it features photos and anecdotes guaranteed to bring a tear to the eye of hardened wiseguys and hopelessly romantic Vegaphiles."

... John L. Smith, *Las Vegas Review-Journal*

Collectors Guide to Coca-Cola Items, Volume II measures 8½" x 5½", contains 94 pages and is square-back perfect bound with attractive full-color, plastic-coated softcover. Supplies are limited; please verify availability before ordering.

BKS-900342 **\$10.95**

Wilson's Coca-Cola Price Guide

This is undoubtedly the most expensive Coca-Cola book in existence. But it's the best, hands down! Author Al Wilson went all out on this one. With over 2,000 color photographs and a handful of black and white pictures, he has captured the massive field of Coca-Cola collectibles.

The range of collectibles seems to cover everything: from ashtrays, airplanes and banks to umbrellas, whistles and window displays—from bottles, bumper stickers, clocks and dolls to napkins, radios, signs, trays and trucks. And each item is accompanied by its issue date, value and notes ranging from dimension to rarity—from short description to manufacturer.

We prefer this guide to many of the other black and white guides because of the color pictures. Long after the prices have faded into history, *Wilson's Coca-Cola Price Guide II* remain as the definitive color picture book covering these popular collectibles.

Wilson's Coca-Cola Price Guide II is case bound with an attractive full color cover, is fully indexed, measures 9¼" x 12¼", and contains 254 fact-filled pages.

BKS-940572 **\$49.95**

Antiques & Collectibles

Hake's Guide to Advertising Collectibles

Author Ted Hake examines over 1,500 objects, all pictured, described and priced, making this book a valuable addition to the reference literature on American advertising. Included are examples of over 50 collectibles issued by one hundred of the most famous American companies, from the 1880s to the present.

Included in this volume are tips on collecting, information on sources and reproductions, a brief history of advertising, an appendix of famous 19th century advertising slogans, and a special section on trademarked figures, some of which are among today's hottest collectibles. Soft cover, 192 pages.

BKS-900645 **\$17.95**

Guide to Cowboy Character Collectibles

Ted Hake authored this completely illustrated price guide covering 50 years of movie and television cowboy heroes. Containing hundreds of photos, it measures 7" x 10", has 188 pages, and is perfect bound with full-color cover. Supplies are limited; please verify availability before ordering.

BKS-900475 **\$17.95**

Miscellaneous Subjects

Chip-Wrecked In Las Vegas

This brand-new entry is a riotous collection of vignettes about Nevada and Las Vegas. Peppered with nearly 90 photographs—old and new—*Chip-Wrecked* reads something like a gigantic *Reader's Digest* of Las Vegas and Nevada.

In 70 chapters you'll read about strange events that have occurred in side casinos, why video poker is taking over the industry, scams and shams through the ages, the rise and fall of the mighty Dunes Hotel and Casino, the inside story about Las Vegas's tourists traps and who's who and what they do. You'll see actual photos of early gambling, Bugsy Siegel ... in life and death, inside Hoover Dam—before it filled with water, Reno's famous Virginia Street in the 1930s, craps shooters in the Las Vegas Club in 1947, Louis Prima singing at the Sahara Lounge in 1956, casino surveillance through one-way mirrors, Howard Hughes and other young casino owners and opening night at the Sands Casino in 1952.

Nevada's largest newspapers (the *Las Vegas Review-Journal* and the *Las Vegas Sun*) have given the highest praise for this new book. Sample: "... it features photos and anecdotes guaranteed to bring a tear to the eye of hardened wiseguys and hopelessly romantic Vegaphiles." Digby Diehl, "Books" editor of *Playboy* magazine said (in the May 1995 issue), "Take a romp through the casino capital of the world in this bizarre collection of true stories and rare photos of old Nevada."

Chip-Wrecked In Las Vegas contains 400 total pages, measures 5½" x 8½", is square-back perfect bound, and has colorful, plastic-coated softcover.

★BKS-170079 **\$19.95**

Harley-Davidson

This book by Sabine Bartels contains over 100 color illustrations and history old and new. A nice timeline is furnished, detailing production periods for various models. *Harley-Davidson* measures 9¼" x 12", contains 80 pages and is hardbound with a dust jacket.

BKS-900008 **\$12.98**

Gumball Machines (Right or Wrong)

Right or wrong? Absolutely! With over a thousand photographed entries, this is the most definitive reference work about gumball machines extant. Laid out in alphabetical order—from ABBEY to ZENO—and covering gumball machines, tab gum, candy, breath mint, peanut, pistachio, cashew, hot nut and general purpose vendors, this volume enables the collector to identify his machine, determine if it has been modified, and even ascertain whether a substitution for a broken or missing part is possible. The book is an excellent field manual.

Primarily a picture book, *Gumball Machines (Right or Wrong)* measures 8½" x 11", has 137 pages, is extensively indexed, and is square-back perfect bound with attractive full-color, plastic-coated soft cover.

★BKS-170257 **\$19.95**

Silent Salesmen Too

There is probably not a person in the coin-op hobby that didn't drool over Bill Enes' first book—*Silent Salesmen*. Now his second edition has exceeded all expectations of the sequel: *Silent Salesmen Too*.

Silent Salesmen Too can be simply described as the definitive guide to collectible vending machines. It contains 1,450 high-resolution black and white photographs, with 32 pages in full color—all printed on heavy, gloss-coated paper. A total of 1,100 gum and peanut machines are displayed (450 more than the first edition) plus 350 miscellaneous vending machines.

Other sections of *Silent Salesmen Too* contain old advertising for vintage vending machines and a patent date guide. A separate 16-page price guide is supplied with each book.

Silent Salesmen Too is case bound with an attractive, full-color "Permacote" cover. It is fully indexed, measures 8½" x 11½" and contains 316 fact-filled pages.

BKS-600026 **\$39.95**

The Incorruptible Cashier

It may be a small group that collects cash registers, but it seems that most collectors of slot machines, pinball machines and jukeboxes have an old cash register among their collections. This duet of books tells the tale of the cash register from its inception, intended to prevent the pilfering of cash by unscrupulous employees, to the year 1915 and its rococo designs.

Although each volume can stand on its own merits, together they comprise a treatise on the subject of cash registers from 1876 to 1915, and are invaluable to collectors looking to identify and evaluate the ancient "incorruptible cashiers" of the title.

The Incorruptible Cashier, Volume I (The Formation of an Industry, 1876 to 1890) is mostly historical, inasmuch as most of the machines shown are extremely difficult to find; nevertheless, approximately 100 examples are pictured. It measures 8½" x 11", contains 198 total pages and is square-back perfect bound with attractive, full-color, plastic-coated softcover.

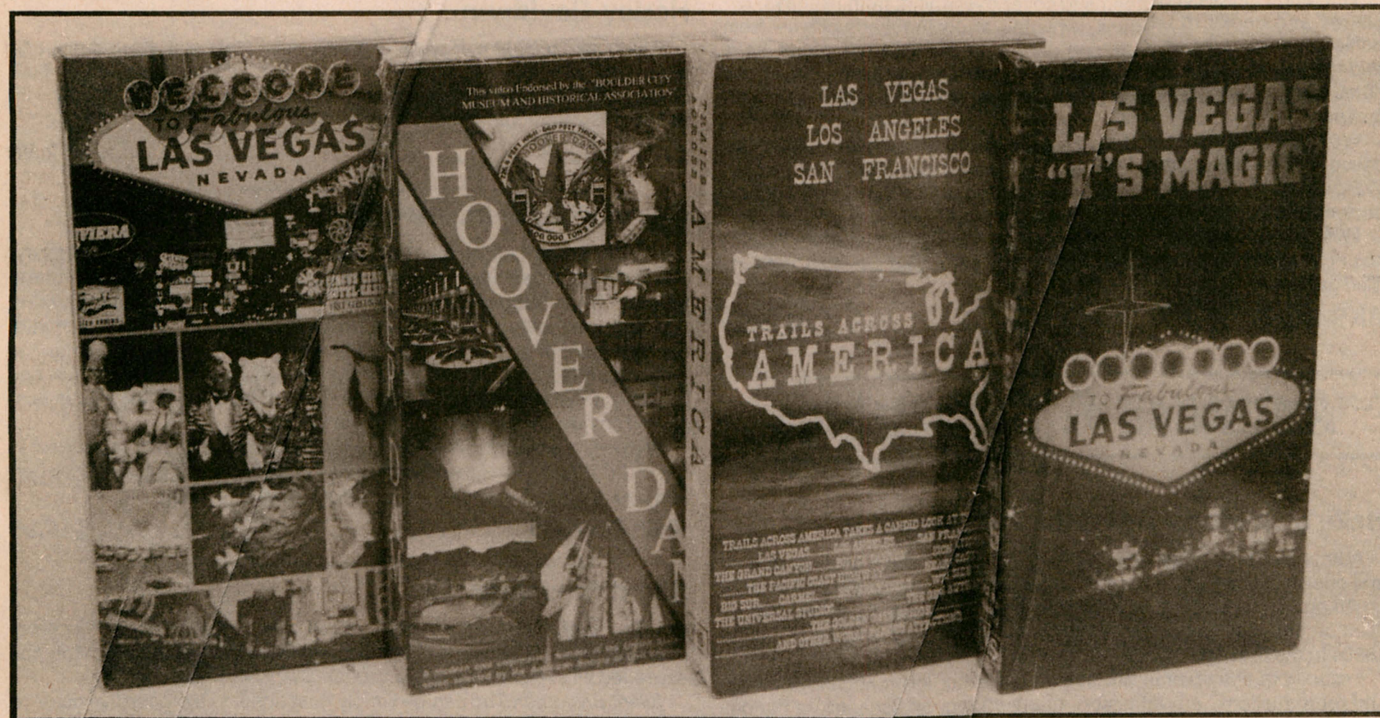

BKS-900701 **\$21.95**

The Incorruptible Cashier, Volume II (The Brass Era, 1888 to 1915) deals with devices that are more readily obtainable, even though still rare. They can be found at auctions, flea markets, and collectible shows even today. This volume measures 8½" x 11", contains 400 total pages, is square-back perfect bound with attractive, full-color, plastic-coated

Video Tapes You Will Enjoy!

LAS VEGAS ★ HOOVER DAM ★ WEST COAST

Here is the easy way to visit Las Vegas, Hoover Dam and the entire West Coast. You can plan your vacation in the West this year and leave the camera at home.

softcover.

BKS-900702 \$37.95

Companion Price Guide to the Incorruptible Cashier

Written as a companion to the two-volume work *The Incorruptible Cashier*, listed elsewhere in this catalog, this price guide establishes price ranges for the machines found in those two books. It also contains tips on restoring, collecting and certifying vintage cash registers. Eight pages, saddle-stitched.

BKS-900703 \$3.95

Much historical footage is included, including scenes of early resorts, Bugsy Siegel's mysterious 'flamingo' and the closing moments of the once-mighty Dunes Hotel and Casino. *The City of Destiny* is a window to the living history of America's most unique city as seen through the eyes of pioneering railroad men, dam builders, visionaries, crackpots and all the others who played key roles in the enigma that is Las Vegas. It is a living compilation from KVBC Channel 3 News, historic records, film and pictures from the Las Vegas News Bureau, University of Nevada and the Nevada State Museum.

This video tape is Las Vegas—there is simply nothing else in video that compares with it. *The City of Destiny* runs 80 minutes and is in VHS format.

VHS-500100 \$19.95

Las Vegas - It's Magic!

This video tapes the new, modern, updated version of *The City of Destiny*, originally released in 1988. Running 10 minutes shorter and trading much of the historical footage for the new theme casinos, we preferred the older version. But if you want to see what a vacation today would be like for you and the family, *Las Vegas - It's Magic*, in VHS format, is the version you will prefer. There is approximately a 50 percent overlap of footage from the original version.

VHS-500138 \$19.95

Hoover Dam

When quickie divorces and legalized gambling became law in Nevada, something else was happening just down the road: Boulder Dam. Now named Hoover Dam, the project was labeled the civil engineering wonder of the United States in 1955—one of seven selected by the American Society of Civil Engineers.

But the building of Boulder Dam is really the interesting part of this

Video Tapes

Welcome to Mead Publishing Company's first entry into video tape marketing. Up to now we have resisted this market because of the price and narrow selections available which would be of interest to our customers. But when we were introduced to those that follow, we couldn't resist.

Las Vegas - The City of Destiny

The title says it all. You will see Las Vegas not only as it was a few years ago (the place is constantly changing), but in its growing stages.

video. And news anchorman Gary Waddell of KLAS-TV in Las Vegas is your host for this incredible story about those who built a pie-shaped concrete wedge between two canyon walls, harnessing the rogue Colorado River that had destroyed towns, ruined crops and generally created havoc whenever it decided to break its banks. *Hoover Dam* is presented in the style of today's television news; but it's the story of the men and women who, at the height of the great depression of the 1930s, cast their fate in the wind-swept desert wilderness of the southwest.

You will see how the early workers lived, in tents and shanties, and the children who spent their childhood there. The scenes of ancient, mammoth construction machinery, blasting, high-scalers and old vehicles are breathtaking. Included are the spillway overflow scenes taken in 1983 when water shot down gigantic bypass tubes at speeds of up to 120 miles per hour. Over 400 master scenes are included—a dramatic presentation told by those who were there.

Hoover Dam runs 70 minutes—over twice as long as the tourist film shown in Boulder City, Nevada—and is available in VHS format only.

VHS-900014 \$19.95

Brand New Old Stock

A long-forgotten cache of rare, out-of-print books was recently discovered by Mead Publishing Company with copyrights from 1950 to the mid-1960s. These still brand new (but well-aged), gambling- and nostalgia-related books are in beautiful condition, making them prime collectibles. All are of historic interest, and many also contain pertinent facts and strategies for winning your favorite card and casino games today.

Stock is very limited on these books. Since some items may sell-out quickly, let us know if alternate titles are acceptable. The best way to order these items is by credit card. It will speed mail orders if payment is made with a blank check. You may wish to note on the check: "Amount not to exceed \$xx.xx," and leave us enough leeway to take care of alternate titles, plus shipping and tax (Nevada residents only).

How to Spot Card Sharps and their Methods

With the invention of cards came crooked gamblers," writes Sidney Radner. This examination of crooked deals, slick cards, fake shuffles and cuts, signals, shiners and hold-outs was written to aid card-players of yesterday in uncovering foul play. By Sidney H. Radner, 6" x 8½", 96 pages, perfect bound.

The SILVER CUPA thorough and precise reporting on a very special machine. There is so much more here than meets the eye.

Those Lovely Ladies of St. Anselmo's Secreted away in the wild back country that was once Gold Nation, the statuesque ladies made a distinct impression on one very surprised roving reporter. Who are these ladies and how much do they know?

July 1983 \$3.25

A Man for All Slots: Another Collector Comes Clean This comprehensive study of one collector reveals his childhood roots and the reasons he grew into a "small-slot machine" enthusiast. Includes a delightful expose of the "craziest characters I've ever met in slot machine collecting."

Arrington Auction Report Stan and Betty Wilker provide complete coverage of the auction held at the Riviera Hotel in Las Vegas on April 30, 1983.

Antique Auction Annie Shows Her Stuff There are certain definite "do-and-don't" rules to surviving an antiques auction. Unfortunately, a trip to an auction with Annie serves to point out problem areas all too well.

June 1983 \$6.00

The Making of an Unusual Slot Collector The personal story of a man who loves to collect antique coin-operated machines. What makes him so unusual is his membership in a motorcycle club known as "Hells Angels."

A House that's Not a Home The tall tales one hears about old gambling towns are absolutely pale beside the real thing as one journalist has found out, much to her surprise and chagrin.

The State of Pokies Down Under It's time for those Aussie slot machines to take center stage in this revealing update on what's up Down Under—pokie-wise, that is.

May 1983 \$4.25

Computer Charts for Slot Machine Payouts An original, innovative feature puts the modern computer to work for collectors of antique slot machines as a compilation of payout statistics for 35 traditional reel strip combinations is offered.

Figuring the Reels Step-by-step instructions allow the reader to accurately figure the payouts from the slot machines they own. The math has been done; all that's left is the fun.

Unforgettable—That's What You Are Some gambling towns play host to a huge number of extremely unique individuals. Recognize any of these?

April 1983 \$3.25

Hitting the Jackpot An exhaustive treatment of the elusive "pot"—a slot machine concept that was a little slow arriving, but was immediately and overwhelmingly popular. A pictorial essay complete with full-page photos of machines and jackpot assemblies.

There is a Tavern in the Town What about those ads for cheapie jaunts to Las Vegas? This humorous look at what you may or may not get with your tour ticket touches all who have ever tried to take the town by storm on a shoestring.

March 1983 \$3.75

Cast-Iron Coin Grinders Enhanced by 12 full-page photos of cast-iron slot machines, this examination of the metal-bodied countertop machines traces from beginning to end the development of an era.

Yes, I'm a Gambler, So What? If you ever had to defend your gaming desires and rationalize the reasons why you love to gamble, you're gonna love this lady's attitude.

Old-Time Arcade Wisdom A wise and warmly nostalgic look at what it took and what it takes to maintain a penny (and otherwise) arcade.

Traveling Arcades From feast to famine, traveling arcades experienced the highs and lows of popularity in America until the end of WWII. A special report on the "missionary" of latter-day arcades.

January/February 1983 \$4.25

Lady Luck Goes to Sea The year was 1928, and the ships anchored off the coast of Southern California were gambling casinos afloat. An unexcelled profile, including many old photographs, of the colorful era of gambling ships brought to a staggering halt by law enforcement officers in 1946.

The Evolution of the Jukebox A collector and authority on jukeboxia takes readers back to the late 1800s in order to present a thoroughly captivating history of the jukebox phenomenon.

A Horse Tale When the horses arrived at this collector's home, they were sick and in poor condition. They were also in a box. A tale of another color.

East Coast Auction Atlantic City, December 12, 1982. Poor advertising and heavy, last-minute snowfall made this auction a giveaway for the buyers who did attend.

December 1982 \$3.75

Beat The Dealer Bally's HIGH HAND is the next best thing to a live poker game. Its features include hold and draw options on promising hands.

Little John's Auction Anaheim, California, November 21-22, 1982. The largest auction of antique gambling memorabilia ever produced had soft prices.

Antique Gambler Auction Las Vegas, November 6-7, 1982. Extensive advertising brought a large crowd of spectators and buyers to this fourth annual event.

Confessions of an Arcade Addict Childhood memories of old-fashioned carnivals helped start this man's collection many years ago.

November 1982 \$3.75

Manufacturing Slot Machines From mechanical to electronic, the manufacture of slot machines has run the technological gamut during a century of evolution. Bally Manufacturing Company is featured.

Slot Machines of the Future The possibilities for slot machines in the future are not only intriguing, they may well be limitless in form.

Those Video Slot Machines Those computer-controlled video slot machines are really becoming popular. Who makes 'em and what makes 'em tick?

I'm Looking for a Ferris Wheel A serious collector shows that he likes all the things that go with slot machines better than the slot machines themselves.

October 1982 \$3.25

1982 Loose Change Fun Fair For those who could attend, this pictorial trip through a collector's dream show will stir grand memories. For the less fortunate, this may be the way to whet an appetite.

The Machine that Lost Its Name A machine with a Mills Gum Vender top and Fey reel strips? With patched holes on the left side for side vending? What kind of a deal is this dang thing, anyway?

Tally Alley Yours for the price of an ad." One collector of antique coin machines couldn't wait to check out this unusual offer with fascinating results.

September 1982 \$3.75

Those Collectible Casino Machines An unusual viewpoint espouses buying a casino slot machine just for the fun of it to play, not to pay.

My Uncle the Slot Bandit Any lesson is costly, but learning how to rig jackpot pays on a two-cherry show can cost a guy plenty.

The Inscrutable Pachinko From Japanese game parlors to American homes, thousands of these vertical pinball machines have made a cultural and geographical transi-

tion.

Abner and the Nickel Jackpot What a surprise party this peanut vender turned out to be—especially for co-workers of a particularly miserly individual.

Legal States for Slot Machines The annual Fun Fair update on who's gone legal and who hasn't and where there is work to be done.

August 1982 \$4.25

The Pandora's Box that Pays Off An in-depth exploration of the restoration techniques one man has used to successfully renovate the horserace slot machine, BAKER'S PACERS.

The Changing Slot Machine Market The fact is, anything is only worth as much as someone is willing to pay for it. This view of a "soft" slot machine market explains why.

The Dying Jukebox At one time there were 700,000 jukeboxes in the United States; but that number has dwindled to a mere 120,000 and is falling still. Is there no future for jukeboxes?

Signs Gamblers Read Billboards leading into the gambling cities whet any and all appetites—from bingo to slot machines and buckets of food.

Going Legal: Part I Illinois is legal, that's a fact; but what now? What are the implications of this for collectors and dealers? We predict.

Heroes of Rock 'n Roll The most expensive television production of rock and roll had its beginnings here at the Antique Juke Box Company.

April 1979 \$3.75

The Ultimate Coin-Operated Machine This comprehensive treatment of mechanical coin-operated machines ranges from banjos and pianos to xylophones and violins. Profusely illustrated with photographs and pages from original catalogs.

Victorian Casino Antiques Auction Frontier Hotel in Las Vegas, March 3-4, 1979. Only this auction could have all the slot machines banned the day before the auction and still have a wonderful selection of other items left to occupy bidders for two days.

The Slot Machine Ban Roy Arrington's auction met with misunderstandings. And the Nevada Gaming Control Board announced there would be no slot machines for sale at this show!

My First Coin Machine Auction Although one collector managed to spend time and money for an Arrington Auction, he had to go home empty-handed. He still looks forward to the next time.

March 1979 Out of Print

Saga of the Snake Remember the little picture of the Serpent slot machine Loose Change published last April? Well, its little sister and a companion have emerged.

More on the Odd Fellows Another "odd fellow" has one collector believing that Oliver Twist isn't the only British-trained thief.

Beginner's Luck A true story about a beginner and her luck—or lack of it.

Our First Year at a Glance If you are a newcomer to Loose Change you may be interested in knowing what you missed.

The Last Tour of the Wurlitzer Factory Imagine taking a tour of your factory—a vacant one. It's exciting if it happens to be as famous as this one.

Moving? Don't Leave Anything Behind Most people are very careful not to leave anything behind when they move—except for one item: their magazine subscriptions.

February 1979 \$3.75

The Making of "Tilt" The story of the making of the Brooke Shields movie about pinball games.

His Hobby Became His Business To many collectors, Roy Arrington means an auction of extraordinary glitter and glamour. Here is Roy's story: how a hobby turned into a business.

Short Changed? Here is the reason some other slot machines had wishy-washy payouts.

January 1979 \$3.75

Behind the Scenes of Harold's Club To the occasional visitor, a gambling casino operation is automatic. This is the other side of that assumption.

The Disneyland Auction Anaheim, California, November 25-26, 1978. Mickey Mouse and friends weren't the only stars present during this auction.

Guinness Sets Its Own Record: Inaccuracy This time they really blew it! They don't know anything about slot machines, as this collector explains.

A Restoration Primer This excerpt from a new book has some fine tips for case and mechanism restoration.

The Reno Auction On December 2-3, 1978, the A-1 Supply Company held the largest one yet—but the prices were erratic.

A Visit with Donna and John Hermann Such a collection of Caille machines you've never seen! And then, there's all the Polk figures! A glowing account of two people who've been in the hobby a long time.

December 1978 Out of Print

It Could Have Been A Lemon! After a successful year in publication, Loose Change has hit cherries, not lemons.

An Interview At The Money Tree A behind-the-scenes look in the slot machine department of The Money Tree Casino in Reno, Nevada.

Great Discoveries Marshall Fey has some recent coin machine discoveries to share.

The Automatic Violin Player Although published more than 60 years ago, this article is just as fascinating now as it must have been then.

Greed Breeds Profit This short story tells about how an old operator profited from the dishonest and greedy customers who played his machines.

November 1978 Out of Print

Charles Fey: The Slot Machine Man An insightful look at the inventor of the first three-reel payout slot machine as we know it today.

The Story of the D. Gottlieb Company A concise story of the company and the

amusement pinballs that have made the name world-famous.

A Collector's Guide to Automatic Music Have you considered an automatic coin-operated machine that plays a real violin—or perhaps two—for your collection? How about an orchestron?

October 1978 Out of Print

The Columbus Story A fact-filled pictorial article about some of the rarest and most valuable gumball machines and the company that built them.

The Caille MULTI-BELL 7-WAY The most ingenious and sophisticated of all mechanical three-reel slot machines outsmarted itself.

September 1978 Out of Print

Those Fascinating Bits of Brass More than 10,000 different kinds of amusement machine tokens are now valuable collectibles.

Tools of the Trade This advanced do-it-yourselfer likes to use the proper tools for the job; and these are the tools he chooses for working on slot machines.

The Letter Remember Dick Bueschel's "Legend of the Triple Imp," which appeared several issues ago? One of our readers went in search of one for his own collection.

The Bonaventure Auction This pooh-poohed event turned out to be a success—despite what the "experts" predicted. It was so successful that another has been planned for November 1978.

From A Pinball Point of View: The Auction Our pinball man laments: "Where have all the wood rail gone?" Except for one old-timer, this auction featured all metal rail machines.

August 1978 Out of Print

A Collector to Remember William F. Harrah is gone, but his empire and collections survive. How did it all begin? This "kickoff" article explores how.

Harrah's Hotels Special hotels built by a man with special ideas.

The Piano Roll Blues "Cookie" made nearly 20,000 arrangements for piano rolls!

Build This Attractive Slot Machine Stand Here's the concluding part of this do-it-yourself project written by a young fellow who did it himself—all for under \$50.

Harrah's: The Organization and the Man It's easy to make money with a gambling casino, right? Wrong! Better read this piece before you try it!

Southern California Antique Show On July 14-16, 1978, Disneyland featured other attractions besides Mickey Mouse and Donald Duck.

Harrah's Takes the Risk Out of Gambling Have you ever seen a casino card dealer clap his hands as he turns the deck over to the next dealer? It's not a gesture of joy; it's one of the rules of the house. This blue-chip operator literally wrote the book for casinos.

The Time Machine This collector wasn't satisfied to accept the fact that his old machine was just plain old. He did some investigation and found out how old.

Pinball: America's Fastest-Growing Craze This article explains the theories about why pinball machines are sources of aggressive or passive sources of amusement.

July 1978 Out of Print

The Vest Pocket Story The complete story about a mini-sized slot machine that has proven itself so popular that it is still being made today.

Investing in Slot Machines "The stock market? Phooey! I'll take slot machines," says this noted collector. Read why.

Guess What Jack and Bill Did? These men made an agreement and shared the results with all of us.

The Mystery of the Missing Pages One of our readers sent a letter to one of our authors, and wow—did we get the wrong number of pages!

The Antique Gambler The other side of the A-1 Supply Company.

Build This Attractive Slot Machine Stand Here's another do-it-yourself project written by a young fellow who did it himself. If he could do it, so can you—and for under \$50.

Keep 'em Playing How to give your old jukebox suffering from "tired trays" a fast fix.

June 1978 Out of Print

A Tribute To Yesterday Ron Brooks turned his clock and calendar back 70 years! His tribute to a slower way of life is his "new" store. But there's something strange about this store: Nothing is for sale!

The Canning Americana Auction Although this auction was not actively advertised for collectors of coin-operated machines, it had a great number of them, and prices were generally lower.

The Orchestron Is there really an orchestra in that cabinet?

The A-1 Supply Company An insightful look at the antique side of this rapidly growing company.

The Slot Machines of San Juan Two Loose Change readers who vacationed there complimented each other so much in their reports that their article was published as one basic story. The second one explains the first.

May 1978 \$3.75

Life Is Just a Game of Bagatelle This in-depth article on the origins of the pinball machines and the earliest models known is the most extensive to date.

Who Are Those Odd-Looking Fellows? Overseas travel can change a slot machine's appearance.

The Biggest Little City is Growing Up New casinos are popping up all over Reno, Nevada.

April 1978 \$3.75

What is a Slot Machine? Those fascinating early machines bear little resemblance to slot machines today.

The Legend of the TRIPLE IMPA fantasy? Who can tell? This may be one tall tale!

Gumballing Valuable information for collectors of gumball machines is contained in this entertaining article.

Tomorrow is Here for Jukebox Tubes You had better get those needed tubes before it is too late!

What Are They Worth? For everyone who has ever asked the question, this announcement of a new price guide will be great news.

Tomorrow is Here for Jukebox Tubes By the way, whatever happened to electron tubes?

We're Off to See the Wizard The Bally super-shooter story with a complete listing of all finalists.

March 1978 \$3.75

Gumballs, Peanuts, Etc. A vending machine collector tells his story, with over five dozen machines illustrated and described.

Why Collect Jukeboxes? One look at a few of this fellow's jukeboxes shows why he got turned on.

The Unique Antiques Auction Culver City, California, January 28-29, 1978. This memorable event was the kickoff for a 10-day chain of events that will be long remembered by collectors worldwide.

It Was a Great Time The Gilgoffs hosted a between-the-auctions party in Culver City. **Is This Really America?** The plight of a slot machine collector whose machines were confiscated should be of concern to all hobbyists.

Will New York Go Legal? That is the question. And we visit with one man who wants to test the results our way.

The Victorian Casino Antiques Auction Roy Arrington's early February auction at the Frontier hotel in Las Vegas was the biggest to date and wound up being the most unforgettable 10-day chain of events in the history of coin-op collecting.

Pinballs at the Unique Antiques Auction The TIVOLI JR. and BINGO machines became attention-getters.

February 1978 \$3.75

It's Time the Laws Were Changed A classic article discusses the legality of antique slot machines.

Are Your Clicks in Order? Get out your stethoscope and give your slot machines a checkup.

The Music Box Here is a history of the music box, featuring the famous Regina.

If You Can't See It, It's Not Legal An Indiana attorney is disturbed about his state's laws dealing with pinball machines.

This One is Loaded The Mills BASEBALL FRONT O.K. VENDER slot machine is loaded with special features.

Allow Me to Introduce You to My Master "Master" gumball machines have completely captivated one collector. Here's the story.

Scoring Big and Resetting Here is how you can fix those inoperative scoring reels on your pinball machine.

January 1978 Out of Print

Those Wonderful Watlings Like Watling machines? You're not alone. This ornate slot machine that never changed its basic style faded into history, but collectors worldwide will never forget them.

Those Fantastic Auctions Two important auctions—one in Los Angeles; the other in Las Vegas—are a week apart. This exclusive interview with the promoters gives all the facts.

The Anatomy of a Bug The modern slot machine player doesn't have problems with bugs. Can it be a new scientific breakthrough? This entertaining treatment of the "bug problem" gives a fascinating insight to a vanishing practice.

A Brief History of the Pinball Machine This capsulized history ranges from 1830 to modern-day machines and gadgets.

The World's Largest Flea Market? The Pasadena Rose Bowl is advertised as "the world's largest flea market." This special article concentrates on its value to the collector.

The Watling TREASURY & ROL-A-TOP Ever wonder where these two desirable machines came from or how they got their names? Need serial numbers for dates of manufacture? Then be sure to read this article. It's all here!

We Turn Loose Change Loose This special "behind-the-scenes look" will be of special interest to those who wonder about the birthplace of Loose Change magazine.

Good Guy or Outlaw? Some states think that pinball machines are an important source of tax money; others think they are nothing but a problem.

The Kruse Auction This past November 1977 auction in Stuart, Virginia, was fun, sad, amusing and disappointing. It was also important to the collector: The price trend

was up!

Premier Issue (Fall 1977) \$6.25

The Jukebox A brief but thorough introduction to the history of these popular machines.

Arcade Machines Today An interview with one of the major distributors of arcade games today gives inside scoop on the past, present and future.

Is This the Record Return on Nickel Play? A durable little trade stimulator gave its owner 27 years of faithful service.

You Can Refinish Your Own Slot Case Here's how to transform that ugly mess into a piece you can display with pride.

The Fabulous Slot Machines The story of Charles Fey and his pioneering LIBERTY BELL slot machine is the turning point in the history of slot machines.

Are Slots for Tots So Bad? A teen takes a look at a controversial idea.

Look Before You Leap So you want to jump right into collecting slot machines? First, read the advice of someone who's been down that road for a long time.

The Seeburg Model "A" Long before Henry Ford introduced his famous four-banger, a Chicago piano manufacturer took the world by storm with his own version.
